The following is an examiner's statement of reasons for allowance: Bruening (U.S. Patent No. 5,318,846) and Oscarsson (U.S. Patent No. 5,942,463) are considered to be closest prior art because they disclose similar processes. The case has been allowed because the recited combination of steps would not have been obvious from the combination of Bruening (U.S. Patent No. 5,318,846) and Oscarsson (U.S. Patent No. 5,942,463).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
